

Platform Overview

The Gallo Legal Web Platform is a modern, responsive application providing clear, professional, and easy-to-use legal services. It offers intuitive navigation, strong accessibility, and a consistent user experience across all devices and browsers, with all data sourced from **RB9**.

Core Functionalities

User Access

Sign In

- **Authentication:** Users must enter a valid email and password to access their account.
- **Successful Login:** Upon successful authentication, users are directed to the **Job Management page**.
- **Authentication Failure:** If credentials are incorrect, a clear error message is displayed, and users are prompted to retry logging in.

Note: SignUp Feature is not part of our project yet.

Job Management Page

This is the central hub where users manage their legal jobs, offering comprehensive oversight through two viewing modes.

- **General Features:**
 - **View Switching:** Users can easily switch between a **List View** and a **Calendar View**.
 - **Pagination:** Both List and Calendar views implement **pagination or infinite scrolling** for efficient handling of large job lists.
 - **Job Details Access:** Clicking on any job entry in either view navigates the user directly to the **Task Details page** for that specific job.
- **List View:**
 - **Sections:** Jobs are logically organized into "**Pending**" and "**Upcoming**" sections.
 - **Upcoming Jobs Display:**
 - Each entry clearly shows its **Time**, **Job Name**, and **Location**.
 - For virtual sessions, an **Online Session Link (Zoom)** is prominently visible and clickable.

- **Selected Job Highlight:** When a user selects an upcoming job, it is highlighted with a clear **blue indicator**.
 - **Pending Jobs Display:**
 - Each entry includes its **Time, Job Name, and Location**.
 - Displays specific status (e.g., "**Videos Pending**," "**Session Started**," "**Session Not Started**").
 - Includes indicators for "**videos uploaded**" (e.g., "1/3 videos uploaded") and "**Deadline**" (e.g., "0hrs 54 min remaining").
 - If a session has started, its **current duration** (e.g., "0hrs 54 min in session") is displayed.
 - **Automatic Status Transition:** If an upcoming job's scheduled **time has passed**, it automatically moves to the "**Pending**" section with an appropriate status (e.g., "Session not Started").
- **Calendar View:**
 - **Visual Representation:** Jobs are visually displayed on a calendar grid.
 - **View Options:** Users can easily switch between **weekday and month views**.
 - **Status Marking:** Jobs are clearly marked (e.g., color-coded or with icons) to show their **scheduled, pending, or completed status**.

Task Details Page

This page allows users to manage and track all job-specific data once a job begins or is selected.

- **Core Displayed Information:**
 - **Job Name, Location, Time.**
 - **Assignee:** Displays the assigned user with an option to assign or reassign.
 - **Progress Bar:** An auto-filling visual indicator reflecting completion of job modules.
- **Core Actions:**
 - **Start Session Button:** Initiates job tracking and session logging.
 - **Mark as Done:** Marks the entire task as complete upon overall completion.
- **Modules & Features:**
 - **Case Details:** Auto-generated, with **edit capability**.
 - **Witness Management:**
 - **Add witness names.**
 - **Read On/Read Off Template:** Appears after saving a witness.
 - **Recording Details:** Enter Start Time and End Time for each recording.
 - **Video Uploads:** Supports **resumable video uploads** (pause/resume from interruption).
 - **Add Multiple:** Option to add multiple recordings per witness or new witnesses.
 - **Download:** Download witness videos.

- **Delete Record:** Requires **confirmation modal**.
 - **Mark Section Done:** Contributes to progress bar.
- **Attorney Orders:**
 - **Details Input:** Name, Firm Name, Notes, Order Details.
 - **Upload Business Card.**
 - **Multiple Entries:** Supports **duplicable entries** for multiple attorneys.
 - **Mark Section Done:** Contributes to progress bar.
- **Billing Information:**
 - **Financial Details:** Videographer Hours, Equipment & Time (Laptop Used, PIP Used, Exhibit Tech, Parking Costs, Time After 5 PM).
 - **Document Uploads:** Upload Additional Documents and Receipts.
 - **End Session:** Finalizes billing and marks job "Complete" (requires **confirmation modal**).
- **Additional Job Actions:**
 - **Cancel Job:** Requires **confirmation modal**.
 - **Reassign Job:** Assigns to another user, requiring a **reason** to be provided.
- **User Feedback and Messaging:**
 - The system provides **clear and relevant feedback messages** for all user interactions, including:
 - **Success messages** (e.g., "Job details updated successfully!").
 - **Validation error messages** (e.g., "Required field empty," "Invalid date/time format," "File size exceeds limit," "Password must be strong").
 - **Confirmation messages** before irreversible actions (e.g., canceling, deleting, ending session).
 - **Informational messages** for process states (e.g., "Uploading video: 75%...", "Processing...").
 - **System/API error messages** if an action cannot be completed.

Settings Page

Users can manage their personal profile and account security.

- **Profile Display:** Displays the user's **current profile picture**.
- **Profile Picture Upload:** Allows **uploading a new profile picture**.
- **User Information:** Displays **Full Name and Email Address** (these fields are **not editable**).
- **Change Password:**
 - A "Change Password" button opens a **modal window**.
 - Modal includes fields for **Old Password**, **New Password**, and **Confirm New Password**.
 - Password is updated by clicking "Update Password" within the modal.
- **User Feedback and Messaging:**
 - Provides **clear and relevant feedback** including:

- **Success messages** (e.g., "Profile picture updated successfully!", "Password changed successfully!").
- **Validation error messages** (e.g., "Invalid old password," "Passwords do not match," "Password too weak," "Please upload a valid image file.").
- **System/API error messages** if an action cannot be completed.

Notifications

Users receive timely and relevant notifications about important events and updates related to their jobs and account.

- **In-App Notifications:**
 - Received within the application for key events (e.g., job assignments, status changes).
 - Displayed clearly (e.g., notification center).
 - Customizable preferences (e.g., which events trigger notifications).
- **Email Notifications:**
 - Received for important events (e.g., job assignments, cancellations, reminders).
 - Well-formatted, detailed, and use pre-defined professional templates.
 - Customizable preferences (e.g., which events trigger emails, frequency).
 - Includes an unsubscribe option.
- **Reliability:** Notifications are sent reliably and timely.
- **Direct Access:** Both in-app and email notifications link directly to the relevant application section.

History Page

Users can view a log of their past job records for review, auditing, or reference.

- **Access:** Accessible from the main application navigation.
- **Job Status Views:** Clearly displays separate lists or filtered views for **Completed Jobs** and **Cancelled Jobs**.
- **Summary Details:** Each job item provides concise summary details (Job Name, Date/Time, Status).
- **Detailed Access:** Clicking on any job item navigates to a view displaying:
 - All **job-specific details**.
 - All **associated records and data** (e.g., Case Details, Witness Management, Attorney Orders, Billing Information) in a **read-only format**.
- **Scalability:** The history list efficiently handles large numbers of jobs (with pagination or infinite scrolling).
